

Ruby - Bug #10029

miss probes.h when nmake

07/11/2014 08:10 AM - sevk (kk kk)

Status:	Closed	
Priority:	Normal	
Assignee:	nobu (Nobuyoshi Nakada)	
Target version:		
ruby -v:	2.1.2	Backport: 2.0.0: UNKNOWN, 2.1: UNKNOWN
Description		
G:\ruby-2.1.2>nmake

I can't reproduce your environment.
probes.h should be copied from probes.dmyh.

```
> nmake array.obj -n
echo copying dummy probes.h
if exist probes.dmyh ( @ copy > nul probes.dmyh probes.h ) else ( @ copy > nul ..\src\probes.dmyh prob
es.h )
echo compiling ../src/array.c
cl -nologo -MD -Zi -W2 -O2b2xg- -G6 -Zm600 -DRUBY_EXPORT -I. -I.ext/include/i386-mswin32 -I../src/inc
lude -I../src -I../src/missing -Foarray.obj -c -Tc../src/array.c
```

Me too.

#3 - 07/11/2014 08:50 AM - phasis68 (Heesob Park)

The version 6.00.8168.0 of nmake.exe is a part of Visual Studio 6.0.
It seems that ruby-2.1.2 cannot be built with Visual C++ 6.0.

#4 - 07/11/2014 08:53 AM - sevk (kk kk)

```
G:\ruby-2.1.2>nmake array.obj -n
```

```
Microsoft (R) Program Maintenance Utility   Version 6.00.8168.0
Copyright (C) Microsoft Corp 1988-1998. All rights reserved.
```

```
    echo compiling array.c
    cl -nologo -MD -Zi -W2 -O2b2xg- -G6 -Zm600 -DRUBY_EXPORT -I. -I.ext/inc
lude/i386-mswin32 -I./include -I. -I./missing -Foarray.obj -c -Tcarray.c
```

you can install virtualbox and install vc6.0 :)

why my "nmake array.obj -n" is different from your's ?

#5 - 07/11/2014 11:39 AM - nobu (Nobuyoshi Nakada)

How did you get the source, and what is the exact revision?

#6 - 07/14/2014 01:21 AM - sevk (kk kk)

Nobuyoshi Nakada wrote:

I delete all source, and run nmake array.obj -n ,the result is same to you. fixed.

(I think the reason is I run configure.bat at win32 dir , and I didn't know how to clean the config files)
