| **ruby -v:** | ruby 2.2.0preview1 (2014-09-17 trunk 47616) [x86_64-darwin13] | **Backport:** | 2.0.0: UNKNOWN, 2.1: UNKNOWN |

| Description |
|---|
| I've just installed ruby 2.2.0-preview1 with ruby-install (I'm not using rvm/rbenv, just ruby-install and chruby) and rails 4.2.0-beta2. I've created new project, ran bundle install and then tried to execute bundle exec rails server. Error log in attachment. |

## History

**#1 - 10/01/2014 04:34 PM - gazay (Alex Gaziev)**

*- File trace2.txt added*

upd.

I also tried new rails project with postgresql database and I got seg. fault with byebug now.
After removing byebug I have seg. fault with web console.
After removing web console it finally started.

Both error logs in attachment.

**#2 - 10/03/2014 04:54 PM - nobu (Nobuyoshi Nakada)**

*- Status changed from Open to Feedback*

All extension libraries were installed after 2.2.0-preview1?
Could you attach DiagnosticReports files?
