Target version:	

Description

=begin
Hi,

(1.0+0i).to_f results to 1.0, whereas (1.0+0.0i).to_f generate RangeError.

irb(main):001:0> "1.0+0i".to_c.to_f
=> 1.0
irb(main):002:0> "1.0+0.0i".to_c == 1.0
=> true
irb(main):003:0> "1.0+0.0i".to_c.to_f
RangeError: can't convert 1.0+0.0i into Float
from (irb):3:in to_f' from (irb):3 from c:/usr/bin/irb.bat:20:in '

It would be nice if "1.0+0.0i".to_c.to_f results to 1.0.

Regards,
Park Heesob
