

Ruby - Bug #4714

Move documentation for proxy attributes

05/17/2011 03:40 AM - amikula (Alf Mikula)

Status:	Closed	Backport:
Priority:	Normal	
Assignee:	drbrain (Eric Hodel)	
Target version:	1.9.3	
ruby -v:	ruby 1.9.3dev (2011-05-11 trunk 31507) [x86_64-darwin10.7.0]	
Description		
The documentation for proxy attributes is placed on accessors in the instance, while attr_accessor calls go undocumented. This patch moves the documentation to the attr_accessors, and documents the convenience methods on the instance accordingly.

This issue was solved with changeset r31603.

Alf, thank you for reporting this issue.

Your contribution to Ruby is greatly appreciated.

May Ruby be with you.

#2 - 05/17/2011 07:16 AM - drbrain (Eric Hodel)

I changed 'in self.class' to 'in Net::HTTP' to be a little more clear.
