Description		
Hello,		
	, and the Mutan alass	
Please add marshalling	support for the Mutex class:	
\$ irb		
	p(Mutex.new) o marshal_dump is defined for clas	s Mutex
	n dump' from (irb):1 from /usr/bin/i	
Here is the workaround	I am currently using:	
	i an carrenay cong.	
class Mutex		
def marshal_dump		
[] end		
def marshal_load array		
# do nothing		
end		
end		
Thanks for your consid	eration.

Hello,

Please add marshalling support for the Mutex class:

\$ irb

Marshal.dump(Mutex.new) TypeError: no marshal_dump is defined for class Mutex Â Â Â from (irb):1:in dump' Â Â Â Â from (irb):1 Â Â Â Â from /usr/bin/irb:12:in '

Because of, Almost all OSs don't have a way to restore mutex locking state. I have no idea how implement it. ;-)

Here is the workaround I am currently using:

class Mutex def marshal_dump Â [] end def marshal_load array Â # do nothing end end Thanks for your consideration.

Hmmm?? It seems locking state lost. Is this acceptable?
