Ruby - Feature #5589

Re: Proposal for sustainable branch maintenance

11/08/2011 12:40 PM - kosaki (Motohiro KOSAKI)

Status:	Rejected
Priority:	Normal
Assignee:	
Target version:	

Description

- Another committer review the request. This reviewer checks if this
  Â commit is good enough and backport it to the older branch.

Do you mean the word "backport" as committing?
If so, who changes patchlevel?
The committer? You?

btw, I have an additional proposal. I think every backport commits
should have got a review *before* backport commit and the commit
messages should have Reviewed-by tag (ie. who reviewed the patch).

History

#1 - 11/08/2011 12:43 PM - nahi (Hiroshi Nakamura)

- Status changed from Open to Rejected

Wrong ticket. See [#5590](#5590) instead for this subject.
