

Ruby - Bug #5616

* /lib/net/imap.rb exception in IMAP.new when get_response returns nil

11/11/2011 06:33 PM - boelen (Edsard Boelen)

Status:	Closed	
Priority:	Normal	
Assignee:	shugo (Shugo Maeda)	
Target version:		
ruby -v:	ruby 1.8.7 (2011-02-18 patchlevel 334)	
Description		Backport:
The error occurred in ruby 1.8.7 when connecting to a buggy IMAP server. The error message was: Undefined method 'name' in imap.rb It is this piece of code in line 915 (line 1067 in ruby 1.9.3): <pre>@greeting = get_response if @greeting.name == "BYE" @sock.close raise ByeResponseError, @greeting end</pre> after a little search I saw that the function 'get_response' returns nil if the buffer is empty: <pre>def get_response buff = "" while true ... end return nil if buff.length == 0 ... return @parser.parse(buff) end</pre>

This issue was solved with changeset r35055.

Edsard, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.

- `lib/net/imap.rb` (`initialize`): raise `Net::IMAP::Error` when the connection is closed without a greeting response.
