

Ruby - Bug #5795

Ruby crash (?) with a simple green shoes app

<b>ruby -v:</b>	ruby 1.9.3p0 (2011-10-30 revision 33570) [i386-darwin9.8.0]	
<b>Description</b>		
I have installed the "green shoes" gem and am attempting to run the script found at <a href="http://pastebin.com/cCVx7rB5">http://pastebin.com/cCVx7rB5</a> . I expect a shoes app to open with a basic alert box and not a crash. Instead I get a crash (log file found at <a href="http://pastebin.com/cgELJupY">http://pastebin.com/cgELJupY</a> ) I have only tested this with 1.9.3. (If I am supposed to test with other ruby versions before filing an issue, I apologize.)

- Status changed from Open to Third Party's Issue

It seems rb-glib2's issue.
