

Ruby - Feature #7025

way to wait for closing with IO.popen object

Description Hello. I noticed that it seems, if you do: IO.popen("something", "w") there's currently no way (without using a block form? [1]) to tell that this process has exited (or do correct me if I'm wrong). So consider this a feature request for such. Thanks! -roger- [1] http://stackoverflow.com/questions/1217351/io-popen-how-to-wait-for-process-to-finish
