

Ruby - Bug #7467

lib/mkrmf.rb merge_lib fails on larger sets of libraries

11/29/2012 05:42 PM - mpapis (Michal Papis)

Status:	Closed	Backport:
Priority:	Normal	
Assignee:	nobu (Nobuyoshi Nakada)	
Target version:	2.0.0	
ruby -v:	ruby 1.9.3p286 (2012-10-12 revision 37165) [x86_64-darwin12.2.0]	
Description		
running:		
merge_libs(["-Incurses", "-ltinfo", "-lssl", "-lcrypto", "-lz", "-lreadline", "-ltermcap", "-lyaml"],["-lcrypto", "-lssl", "-lcrypto", "-lz"],[])		
fails with an exception		
I have tried a bit and it works fine with a lot simplified version of this code:		
<pre>def merge_libs(*libs) libs.flatten.uniq end</pre>		
Also can this be backported to Ruby 1.9.3?

This issue was solved with changeset r39128.
Michal, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.

mkmf.rb: fix merge_libs

- lib/mkmf.rb (MakeMakefile#merge_libs): insert following reversal ordered elements just after the duplicated element, not overwriting successive elements. [\[ruby-core:50314\]](#) [Bug [#7467](#)]

#4 - 02/09/2013 10:43 PM - mpapis (Michal Papis)

just curious what the new code does more over the simple `libs.flatten.uniq?`
