Ruby - Bug #7666

Should Refinements be enabled by default?

01/07/2013 12:53 PM - shugo (Shugo Maeda)

Status:	Closed		
Priority:	Normal		
Assignee:	matz (Yukihiro Matsumoto)		
Target version:			
ruby -v:	ruby 2.0.0dev (2013-01-07 trunk 38719) [i686-linux]	**Backport:**	

Description

Currently, `require "refinement"` is needed to use Refinements, but I've heard from Matz that he wants Refinements to be enabled by default.
Is it right, Matz?

If so, I'm worried that other implementors might not want to enable Refinements by default, because it's an experimental feature.
