This is because

- the example is a part the document of REXML::Attribute#namespace, not a part of REXML::Element#add_attributes
- REXML::Element#add_namespace is a better way to add a new namespace rather than add_attribute

#4 - 08/05/2013 03:37 AM - zzak (zzak _)

- Status changed from Assigned to Closed

- % Done changed from 0 to 100
