

Ruby - Bug #9189

Build failure on Windows in case of nonascii TEMP environment.

12/01/2013 06:06 PM - phasis68 (Heesob Park)

Status: Open	
Priority: Normal	
Assignee:	
Target version:	
ruby -v: ruby 2.1.0dev (2013-11-30 trunk 43936) [i386-mingw32]	Backport: 3.0: UNKNOWN, 3.1: UNKNOWN, 3.2: UNKNOWN

Description

I experienced a build failure during build extension library with trunk on Windows.

```
make[2]: Entering directory `./work/ruby-2.1.0-r43936/ext/bigdecimal'
generating bigdecimal-i386-mingw32.def
compiling bigdecimal.c
In file included from bigdecimal.c:20:0:
bigdecimal.h:62:1: error: static declaration of 'labs' follows non-static declaration
make[2]: *** [bigdecimal.o] Error 1
make[2]: Leaving directory `./work/ruby-2.1.0-r43936/ext/bigdecimal'
make[1]: *** [ext/bigdecimal/all] Error 2
make[1]: Leaving directory `./work/ruby-2.1.0-r43936'
make: *** [build-ext] Error 2
```

I found the cause of this error is mkmk failure.

Here is a part of mkmf.log

```
have_func: checking for labs() in stdlib.h... ----- no
```

```
"i686-w64-mingw32-gcc -o conftest.exe -I../../ext/include/i386-mingw32 -I../../include -I../.././ext/bigdecimal -D_WIN32_WINNT=0x0501 -D_FILE_OFFSET_BITS=64 -O3 -fno-omit-frame-pointer -fno-fast-math -ggdb3 -Wall -Wextra -Wno-unused-parameter -Wno-parentheses -Wno-long-long -Wno-missing-field-initializers -Wunused-variable -Wpointer-arith -Wwrite-strings -Wdeclaration-after-statement -Wimplicit-function-declaration conftest.c -L. -L../../L. -lmsvcrt-ruby210-static -lshell32 -lws2_32 -liphlpapi -limagehlp -lshlwapi "
```

```
This application has requested the Runtime to terminate it in an unusual way.
```

```
Please contact the application's support team for more information.
```

```
Cannot create temporary file in C:\Users\??\AppData\Local\Temp\: Invalid argument
```

The TEMP environment variable is

```
C:\work\ruby-2.1.0-r43936>set TEMP
TEMP=C:\Users\??\AppData\Local\Temp
```

It seems that miniruby cannot handle encoding properly.

```
C:\work\ruby-2.1.0-r43936>miniruby -ve "p ENV['TEMP']"
ruby 2.1.0dev (2013-11-30 trunk 43936) [i386-mingw32]
"C:\Users\??\AppData\Local\Temp"
```

```
C:\work\ruby-2.1.0-r43936>miniruby.exe -ve "p ENV['TEMP'].encoding"
ruby 2.1.0dev (2013-11-30 trunk 43936) [i386-mingw32]
#<Encoding:ASCII-8BIT>
```

Whereas, the final ruby can handle encoding properly.

```
C:\work>ruby -ve "p ENV['TEMP']"
ruby 2.1.0dev (2013-11-30 trunk 43923) [i386-mingw32]
"C:\Users\??\AppData\Local\Temp"
```

```
C:\work>ruby -ve "p ENV['TEMP'].encoding"
ruby 2.1.0dev (2013-11-30 trunk 43923) [i386-mingw32]
#<Encoding:CP949>
```

- Target version set to 2.1.0

#2 - 12/01/2013 08:23 PM - usa (Usaku NAKAMURA)

- Status changed from Open to Third Party's Issue

"This application" is not ruby.
It's your compiler.
Please contact the compiler's support team for more information :)

#3 - 12/01/2013 09:57 PM - phasis68 (Heesob Park)

Yes, the error message is not from ruby, but from mingw compilers.
And I found TMP environment variable is the actual cause of this error.
Nevertheless, I think Ruby is not entirely free from this error.

If I run "ruby extconf.rb" in ext/bigdecimal folder,
The mkmf works as expected without error on the same environment.

Anyway, I leave this message for the record:
If you want to build ruby from source with Mingw toolchain,
the TMP environment variable should not contain non-ascii string.

#4 - 12/01/2013 10:59 PM - nobu (Nobuyoshi Nakada)

Is TEMP changed by miniruby?
miniruby -e "system('set TEMP')"
shows the correct path?

#5 - 12/01/2013 11:42 PM - phasis68 (Heesob Park)

Yes, it shows the correct path.

```
C:\work\ruby-2.1.0-r43936>miniruby.exe -e "system('set TEMP')"  
TEMP=C:\Users\□□\AppData\Local\Temp
```

BTW, In Visual C++ compiler, I can see same build failure with non-ascii USERNAME environment variable.

#6 - 12/02/2013 12:18 AM - usa (Usaku NAKAMURA)

- Status changed from Third Party's Issue to Assigned
- Backport changed from 1.9.3: UNKNOWN, 2.0.0: UNKNOWN to 1.9.3: DONTNEED, 2.0.0: REQUIRED

Ah, I see.

There is a bug of handling the environment variables in miniruby.
I'm debugging it now...

#7 - 12/02/2013 12:56 AM - usa (Usaku NAKAMURA)

- Status changed from Assigned to Closed
- % Done changed from 0 to 100

This issue was solved with changeset r43950.
Heesob, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.

-
- hash.c (getenv): use ANSI codepage version of getenv() for miniruby on Windows.
[\[ruby-core:58732\]](#) [Bug [#9189](#)] reported by phasis68 (Heesob Park).

#8 - 12/02/2013 10:34 PM - usa (Usaku NAKAMURA)

- Status changed from Closed to Assigned
- Assignee deleted (usa (Usaku NAKAMURA))
- Backport changed from 1.9.3: DONTNEED, 2.0.0: REQUIRED to 1.9.3: REQUIRED, 2.0.0: REQUIRED

r43950 (and r43958) is only a workaround.
We have to change the entire implementation of ENV to treat encoding.

#9 - 12/02/2013 10:34 PM - usa (Usaku NAKAMURA)

- Backport changed from 1.9.3: REQUIRED, 2.0.0: REQUIRED to 1.9.3: DONTNEED, 2.0.0: REQUIRED

#10 - 01/30/2014 06:17 AM - hsbt (Hiroshi SHIBATA)

- Target version changed from 2.1.0 to 2.2.0

#11 - 04/29/2014 01:27 PM - phasis68 (Heesob Park)

I still failed to build trunk.

#13 - 11/13/2023 08:11 PM - pcai (Peter Cai)

I'm unable to reproduce. Windows presents an ascii-safe alias of the TEMP folder for me so I can't seem to test the handling:

- windows 11 (Version 10.0.22621 Build 22621)
- Ruby+Devkit 3.2.2-1 (x64)

```

C:\work>ruby -e "system('set TEMP')"
TEMP=C:\Users\6863~1\tmp

```

```

C:\work>set TEMP
TEMP=C:\Users\6863~1\tmp

```

```

C:\work>cd C:\Users\6863~1\tmp

```

```

C:\Users\6863~1\tmp>echo %cd%
C:\Users\6863~1\tmp

```

```

C:\Users\6863~1\tmp>ruby -v
ruby 3.2.2 (2023-03-30 revision e51014f9c0) [x64-mingw-ucrt]

```

Can anyone describe an environment that can reproduce?

#14 - 11/28/2023 06:27 AM - nobu (Nobuyoshi Nakada)

- Backport changed from 1.9.3: DONTNEED, 2.0.0: REQUIRED to 3.0: UNKNOWN, 3.1: UNKNOWN, 3.2: UNKNOWN

pcai (Peter Cai) wrote in [#note-13](#):

Thank you for testing.

Does it work after set TEMP=C:\Users\6863~1\tmp?
