

Ruby - Bug #12844

Unable to run \$rails console

10/16/2016 08:00 PM - FrederickJohn (Frederick Schiller)

Status:	Closed	
Priority:	Normal	
Assignee:		
Target version:		
ruby -v:	ruby 2.3.1p112 (2016-04-26 revision 54768) [x86_64-darwin15]	Backport: 2.1: UNKNOWN, 2.2: UNKNOWN, 2.3: UNKNOWN
Description <p>If I run rails console it diplays many lines of code and then states:</p> <p>[NOTE] You may have encountered a bug in the Ruby interpreter or extension libraries. Bug reports are welcome. For details: http://www.ruby-lang.org/bugreport.html</p> <p>If I specify development it will show me the console has started. But upon issuing any command for instance user = User.new it will revert back to the original error. I'm running mac sierra</p> <pre>\$ bin/rails console development Running via Spring preloader in process 30451 Loading development environment (Rails 5.0.0.1) irb(main):001:0></pre>
