merge revision(s) 61605,62359,62361: [Backport #14356]

```
Try to fix Travis CI configuration.
```

```
.travis.yml: send notification to #alerts
```

```
instead of #commits.
```

```
.travis.yml: resurrect notification to #commits
```

```
I heard at least Shibata-san sees the channel for the notification.  
But I want #alets to have all CI failure notifications too.
```

History

#1 - 01/15/2018 06:45 AM - dsferreira (Daniel Ferreira)

What is that slack channel?
Is it open to subscription?

#2 - 01/15/2018 11:58 AM - hsbt (Hiroshi SHIBATA)

It's a private team.

#3 - 02/11/2018 06:36 AM - k0kubun (Takashi Kokubun)

In r62359 and r62361, I configured Travis to send notification to another channel too.
Both channels are for private team unfortunately.

#4 - 02/22/2018 09:29 PM - naruse (Yui NARUSE)

- Backport changed from 2.3: DONTNEED, 2.4: DONTNEED, 2.5: REQUIRED to 2.3: DONTNEED, 2.4: DONTNEED, 2.5: DONE
