

Ruby - Misc #14581

Update JSON docs

03/06/2018 09:14 PM - zverok (Victor Shepelev)

Status:	Third Party's Issue	
Priority:	Normal	
Assignee:		
Description		
What is here:		
<ul style="list-style-type: none">• adding docs for (questionable, yet present) "additions" feature;• cleaning up (both formatting and formulations) docs of JSON.generate: current docs are poorly formatted and its documentation shifted more towards (internal) State object than just options;• some other style/formatting cleanups.		

History

#1 - 03/06/2018 09:19 PM - zverok (Victor Shepelev)

- Description updated

#2 - 03/07/2018 09:41 AM - hsbt (Hiroshi SHIBATA)

- Status changed from Open to Third Party's Issue

Can you submit an upstream repository first?

<https://github.com/flori/json>

#3 - 03/07/2018 09:52 AM - zverok (Victor Shepelev)

[@hsbt \(Hiroshi SHIBATA\)](#) Ah, OK. I've tried to find the "upstream" version but failed to do so. Thanks for pointing it out.

#4 - 03/07/2018 10:16 AM - zverok (Victor Shepelev)

[@hsbt \(Hiroshi SHIBATA\)](#) BTW, what's the maintenance status of the upstream? Currently, I can see there:

- the last PR is merged in October, last before that in Jun, last before that in spring, there are several uncommented PRs (including ones with serious performance improvements, or [security issue](#) discussion/PR open for 3 years in a row)
- there are a lot of unaddressed issues, and of closed ones, the last that was touched by repo owner was just silent closing (of irrelevant ones?) in April

I was thinking about doing several PRs to clean up the legacy parts of the library & docs, but now I am not sure if there would be anybody on the receiving end of those PRs.

#5 - 03/07/2018 10:36 AM - zverok (Victor Shepelev)

(In addition, as far as I understand, there is some discrepancy between "standalone" json and in-Ruby json: the latter does not include "pure" part of JSON library, virtually rendering half of its code **and docs** false.)

#6 - 03/07/2018 11:42 AM - hsbt (Hiroshi SHIBATA)

what's the maintenance status of the upstream?

It's active.

#7 - 11/20/2019 05:00 AM - zverok (Victor Shepelev)

[@hsbt \(Hiroshi SHIBATA\)](#)

what's the maintenance status of the upstream?

It's active.

I just noticed my documentation patches [#349](#) and [#347](#) and clarification request [#348](#) are pending since **March 2018**, e.g. for 1.5 years already. Is there something that can be done to unfreeze them?..
