

Ruby - Bug #239

Zlib::Deflate#params can corrupt output

07/09/2008 08:55 AM - drbrain (Eric Hodel)

Status:	Closed	
Priority:	Normal	
Assignee:		
Target version:		
ruby -v:		
Description		Backport:
<pre>=begin It seems that Zlib::Deflate#params needs to flush the input buffer. Example output from running the attached test script: \$ ruby18 -v ztest.rb ruby 1.8.7 (2008-06-25 revision 17572) [i686-darwin9.3.0] deflated: "x\001\000\n\000\365\377abcdefghij\002,;7^277" ztest.rb:16: warning: attempt to close unfinished zstream; reset forced. ztest.rb:16:in inflate': buffer error (Zlib::BufError) from ztest.rb:16 \$ ruby19 -v ztest.rb ruby 1.9.0 (2008-06-26 revision 15873) [i686-darwin9.3.0] deflated: "x\x01\x00\n\x00\xF5\xFFabcdefghij\x02,;7\xBF" ztest.rb:16: warning: attempt to close unfinished zstream; reset forced. ztest.rb:16:in inflate': buffer error (Zlib::BufError) from ztest.rb:16:in `` \$ =end</pre>
