

Show Your Code

9/30/2009

Opening Discussion

- What did we do last class?
- Minute Essay comments
 - Spending time on this will help you learn it. Don't bang your head too long though.
 - Deciding what to use when.
 - Can we make people move randomly if there isn't a house to go to?

Show Your Code

- Let's go through and look at people's solutions to the interclass problems for loops and lists.

Smarter Person Movement

- We had talked about how to make our scenario be a bit more intelligent in regards to people moving.
- Let's implement some of that if time allows.

Minute Essay

- What types of things would you like to see as examples in the second half of the semester?
 - HTML processing
 - Text processing
 - Spreadsheet style processing
 - Optimal solution finding
 - Pretty pictures/games
 - Something else?
