The abstract should be a single paragraph which summarises the content of the article. Any references in the abstract should be written out in full e.g. [Surname et al., Journal Title, 2000, 35, 3523].

The main text of the article<sup>1</sup> should appear here. Headings and subheadings are not permitted in articles submitted to *Chemical Communications*, with the exception of “Conflicts of interest”, “Data availability” and “Notes and references”.

For *Chemical Communications*, please also see the journal-specific guidelines for page length requirements, therefore following editing and production, your article may require shortening. To assist with this please do not alter font sizes or styles as this may delay publication of your article.

Equations can be typeset inline e.g.  $y = mx + c$  or displayed with and without numbers:

$$A = \pi r^2$$

$$\frac{\gamma}{\epsilon x} r^2 = 2r \quad (1)$$

Graphics should be inserted on the page where they are first mentioned (unless they are equations, which appear in the flow of the text).<sup>2</sup>

Tables typeset in RSC house style do not include vertical lines. Table footnote symbols are lower-case italic letters and are typeset at the bottom of the table. Table captions do not end in a full point.<sup>3,4</sup>

Adding notes to tables can be complicated. Perhaps the easiest

## EXAMPLE IMAGE

Fig. 1 An example figure.

Table 1 An example of a caption to accompany a table

Header one/units	Header two	Header three
1	2	3
4	5	6
7	8	9
10	11	12

method is to generate these manually.

You can also put lists into the text. You can have bulleted or numbered lists of almost any kind. The `mhchem` package can also be used so that formulae are easy to input: `\ce{H2SO4}` gives  $\text{H}_2\text{SO}_4$ .

The conclusions section should come at the end of article.

## Author Contributions

We strongly encourage authors to include author contributions and recommend using CRediT for standardised contribution descriptions. Please refer to our general author guidelines for more information about authorship.

## Conflicts of interest

In accordance with our policy on Conflicts of interest please ensure that a conflicts of interest statement is included in your manuscript here. Please note that this statement is required for all submitted manuscripts. If no conflicts exist, please state that “There are no conflicts to declare”.

<sup>a</sup> Address, Address, Town, Country. Fax: XX XXXX XXXX; Tel: XX XXXX XXXX; E-mail: xxx@aaa.bbb.ccc

<sup>b</sup> Address, Address, Town, Country.

<sup>†</sup> Additional footnotes to the title and authors can be included e.g. ‘Present address:’ or ‘These authors contributed equally to this work’ as above using the symbols: ‡, §, and ¶. Please place the appropriate symbol next to the author’s name and include a \footnotetext entry in the the correct place in the list.

## Data availability

A data availability statement (DAS) is required to be submitted alongside all articles. Please read our full guidance on data availability statements for more details and examples of suitable statements you can use.

## Notes and references

For the reference section, the style file `rsc.bst` can be used to generate the correct reference style.<sup>§</sup>

1. Citations should appear here in the format A. Name, B. Name and C. Name, *Journal Title*, 2000, **35**, 3523;
2. A. Name, B. Name and C. Name, *Journal Title*, 2000, **35**, 3523.

...

We encourage the citation of primary research over review articles, where appropriate, in order to give credit to those who first reported a finding. Find out more about our commitments to the principles of San Francisco Declaration on Research Assessment (DORA).
