

Capabilities Statement

Mobilize VISION is a data-focused product company that specializes in positioning organizations to leverage their information to truly see what's possible. We have extensive experience tackling complex challenges in the federal space by building powerful software that drives connections and forges pathways for collaboration. Our product, **VISION**, is an adaptable solution built to empower the government by connecting data, people, projects, resources and more!

Use Cases

- **Problem solving:** VISION creates a network of projects and initiatives that allow organizations to identify problems and manage solutions for faster innovative capabilities.
- **Market research:** By capturing and aggregating portfolio information, VISION creates a front door to manage demand signal and input to and from the industrial base.
- **Portfolio deconfliction:** VISION enables portfolio visibility with built-in hierarchical data structures that promote improved management and increased efficiency.

Why Us?

Mobilize VISION has a robust use case with the Department of Defense. With an initial deployment of VISION in one of the world's most demanding environments, we're positioned to adapt this powerful software across federal agencies.
